JavaScript, HTML5, CSS3, SASS, ReactJS, Redux, Bootstrap, Ruby, **Ruby on Rails**, PostgreSQL, RSpec, JIRA, Jest, Git, GitHub, Heroku, Netlify, WordPress, Elementor, Pair-Programming.

HIGHLIGHTED PERSONAL PROJECTS

Social Media App : [Project Link](#)

- This is a website where users send and receive friend requests from other users. Users can see the posts created by their friends on their timeline. They can like it as well as comment on it. Users can also see their pending friend requests and choose to decline the invitation.
- Built with Ruby, Ruby on Rails, SASS, Bootstrap, PostgreSQL

Stocks Info : [Project Link](#)

- Stocks Info displays the most active, most gaining, and most losing stocks. Users can open each stock card for further details. It also displays the latest market news and gives users the ability to find information about any stock.
- Built with React, React Hooks, Redux, Bootstrap, Axios, and Stock API.

EXPERIENCE

Freelance Web Developer

March 2019 - Present

Remote

- Build portfolio websites for graduates showcasing their skills, as well as shop templates for local restaurants and service agencies, resulting in increasing their sales and leads by 15%.
- Work closely with a team of Graphic Designers and Senior Developers in an agile environment, and implement immediate word-of-mouth change requests.

Manual Test Engineer

October 2017 - March 2019

Pole To Win, Bangalore India

- Worked closely with a team of software developers to implement the deep linking feature of the “[Wizard of Oz](#)” app for iOS, Android, and Kindle platforms.
- Received client recognition for successfully carrying out DLC functionality and integration tests by identifying bugs and generating bug reports.
- Managed a team of five manual test engineers to carry out functionality and regression testing for a holiday sale feature that pushed the “[Wizard of Oz](#)” app to “Top 10 trending” games.
